- (a) Explain four challenges that may be encountered when installing a cost accounting system.

 (8 marks)
- (b) The following information relates to Nairobi Enterprises:

Receipts of materials: - Roychoses

| Date 2016 | Quantity | Cost per unit | |
|--------------|----------|---------------|------|
| T | | | Ksh. |
| June | 2 | 600 | 4 |
| | 4 | 400 | 5 |
| | 16 | 500 | 6 |
| | 24 | 500 | 7 ' |

Issues of materials: 400

| 100 | 2016 | Quantity |
|------|------|----------|
| June | 10 | 500 |
| - | 50 | 300 |
| | 30 | 600 |

Prepare a stores ledger account for the month of June 2016 using the First In First Out (FIFO) method of stock valuation. (12 marks)

(a) Mala Limited manufactured products under Batch No. M25 in department X and Y. The following costs were incurred:

Direct materials

Ksh 450,000

Department X:

300 labour hours at Ksh 400 per day

Y:

500 labour hours at Ksh 300 per hour

Factory overheads are absorbed on labour hours at the rate of Ksh 100 per hour in department X and at Ksh 150 per hour in department Y. Administration overheads are 15% of factory costs.

Additional information:

The company produced 1500 units for Batch No. M25.

- (i) Calculate the cost per unit.
- (ii) A customer has offered to buy the Batch at Ksh 800,000. With reason(s), advise the management on whether to accept the offer or not.

(b) Explain four factors that should be considered before choosing the method of charging overheads to cost centres.

(8 marks)

3. (a)

D.S. M. M. P. M.

The following information was extracted from the books of account of Hivo Manufacturers.

| Direct materials Direct wages Depreciation of factory buildings Factory buildings | Ksh |
|---|-----------|
| Direct materials | 1,500,000 |
| Direct wages | 1,300,000 |
| Depreciation of factory buildings | 50,000 |
| Insurance: Officer buildings Factory buildings Delivery van expenses | 000,08 |

alien aver

Process A account.

(i) Process B account.

(ii) Process B account.

(iii) Normal process loss account.

(iv) Process B a

(a) Explain four benefits that may be derived from cost classification by an organisation.

(8 mark

(b) Kapeo Limited has two departments A and B. The budgeted and actual data for the month of July 2016 is provided below:

| . | Dept | Direct wages | Labour hours | Machine hours | Production overheads |
|----------|------|--------------|--------------|---------------|----------------------|
| Budgeted | A | 240,000 | 2000 | 5000 | 2,050,000 |
| | В | 000,008 | 4000 | 2500 | 3,400,000 |
| Actual | Α | 400,000 | 2500 | 5500 | |
| | В | 700,000 | 4500 | 2000 | |

Additional information:

(i) During the month of July 2016, product Exe was made utilising the following costs and time (hours)

| Department | Direct wages | Labour hours | Machine hours |
|------------|--------------|--------------|---------------|
| Α | 36,000 | 40 | 25 |
| В | 34,000 | 35 | 30 |

- (i)) The direct material cost of the job was Ksh 150,000.
- (iii) Departmental production overheads were absorbed as follows:

Department

A Labour hours

B Machine hours

Determine

- (I) The cost of product Exe using a simple factory-wide overhead absorption rate on labour hours.
- (II) Cost of product Exe using departmental overhead absorption rates.
 (12 marks)

6.

Explain four factors that should be considered before choosing a suitable method for (8 marks) labour remuneration.

Furniture Limited has two production departments, 1 and 2 and two service departments, X and Y. The departmental distribution summary for June 2016 period has the following totals:

| Department 1 Department 2 | Ksh 120,000 80,000 | |
|---------------------------|--------------------------|--|
| Service departments: | 20,000 | |

Department X 35,000 Department Y

The expenses of the service departments are apportioned on a percentage basis as follows:

| follows: | | | Service department | | |
|----------------------|------------|------------|--------------------|------------|-------|
| | Production | department | | X | Y |
| | 1 | 2 | | | 40% |
| Service department X | 40% | 20% | | 20% | _ |
| Service department Y | 30% | 50% | | 20 % | |
| Sel vice department | | | | · Janoetri | ants' |

Prepare a statement showing the apportionment of the two service departments' expenses to the production department using the repeated distribution method (up to Ksh 275.2 for department Y).

(12 marks)
