INFORMATION COMMUNICATION TECHNOLOGY (Practical)

Paper 2

1 hour

INSTRUCTIONS TO CANDIDATES

*You have **ten** minutes to read through the instructions and the question paper before starting the examination.*

Any problem with the computer should be reported to the invigilator immediately.

Direct any question(s) to the invigilator only. Conversing with fellow students may lead to disqualification.

*Type your **name** and **index number** as a header on **each** sheet used.*

*This paper consists of **FOUR** tasks. Perform **ALL** the tasks.*

*Each task carries **10** marks.*

Read the instructions of each task carefully.

*Print on **one side** of the paper only and use a fresh sheet of paper for each task.*

*Hand over your **printouts** and the **rewritable CD** to the invigilator at the end of the examination.*

This paper consists of 5 printed pages

Candidates should check the question paper to ascertain that all the pages are printed as indicated and that no questions are missing.

SPECIFIC INSTRUCTIONS TO CANDIDATES

1. Create a folder named **KNECEXAM** to store all the work done in this paper.
2. Ensure that the **KNECEXAM** folder and its contents is burnt onto the **Rewritable CD** provided.

TASK 1

- (a) Activate the *uninstall or change* program on the computer. Screen capture the activated window and paste it in a blank word document. Save the document as *Changeprogram* in the **KNECEXAM** folder to print out later. (5 marks)
- (b) Open the edit program using the command prompt and key in the following text. Save it as *DOSText.txt* to print out later. (5 marks)

Computer Architecture refers to those attributes of a system that have a direct impact on the logical execution of a program – functional behavior as viewed by programmer.

Examples:

The instruction set

The number of bits used to represent various data types I/O mechanisms

Memory addressing techniques

Computer Organization refers to the operational units and their interconnections that realize the architectural specifications – Structural r/ships invisible to programmer.

TASK 2

- (a) (i) Create the following dummy files in the **KNECEXAM** folder.
- I. Word document;
 - II. Spreadsheet;
 - III. Bitmap image;
 - IV. Text document.
- (2 marks)
- (ii) Create a shortcut of the **KNECEXAM** folder in the same folder. Rename it as *CopyKNEC*. (2 marks)
- (iii) Create a compressed folder of the *CopyKNEC* folder in the **KNECEXAM** folder. (1 mark)
- (b) (i) Activate the *time zone settings* on the computer and change the default setting to an option of your choice. **DO NOT APPLY THE CHANGES**
- (ii) Screen capture the window with the settings in (i) and paste it in a blank word document. Save the work as *Timezone* in the **KNECEXAM** folder to print out later. (5 marks)

TASK 3

- (a) Display the contents of the C drive using the command based operating system. Screen capture the window (with the result) and paste it in a blank word document. Save the work as *DOS* in the **KNECEXAM** folder to print out later. (5 marks)
- (b) (i) Activate the default program dialog box as shown in figure 1 and set the available word processing program as default.

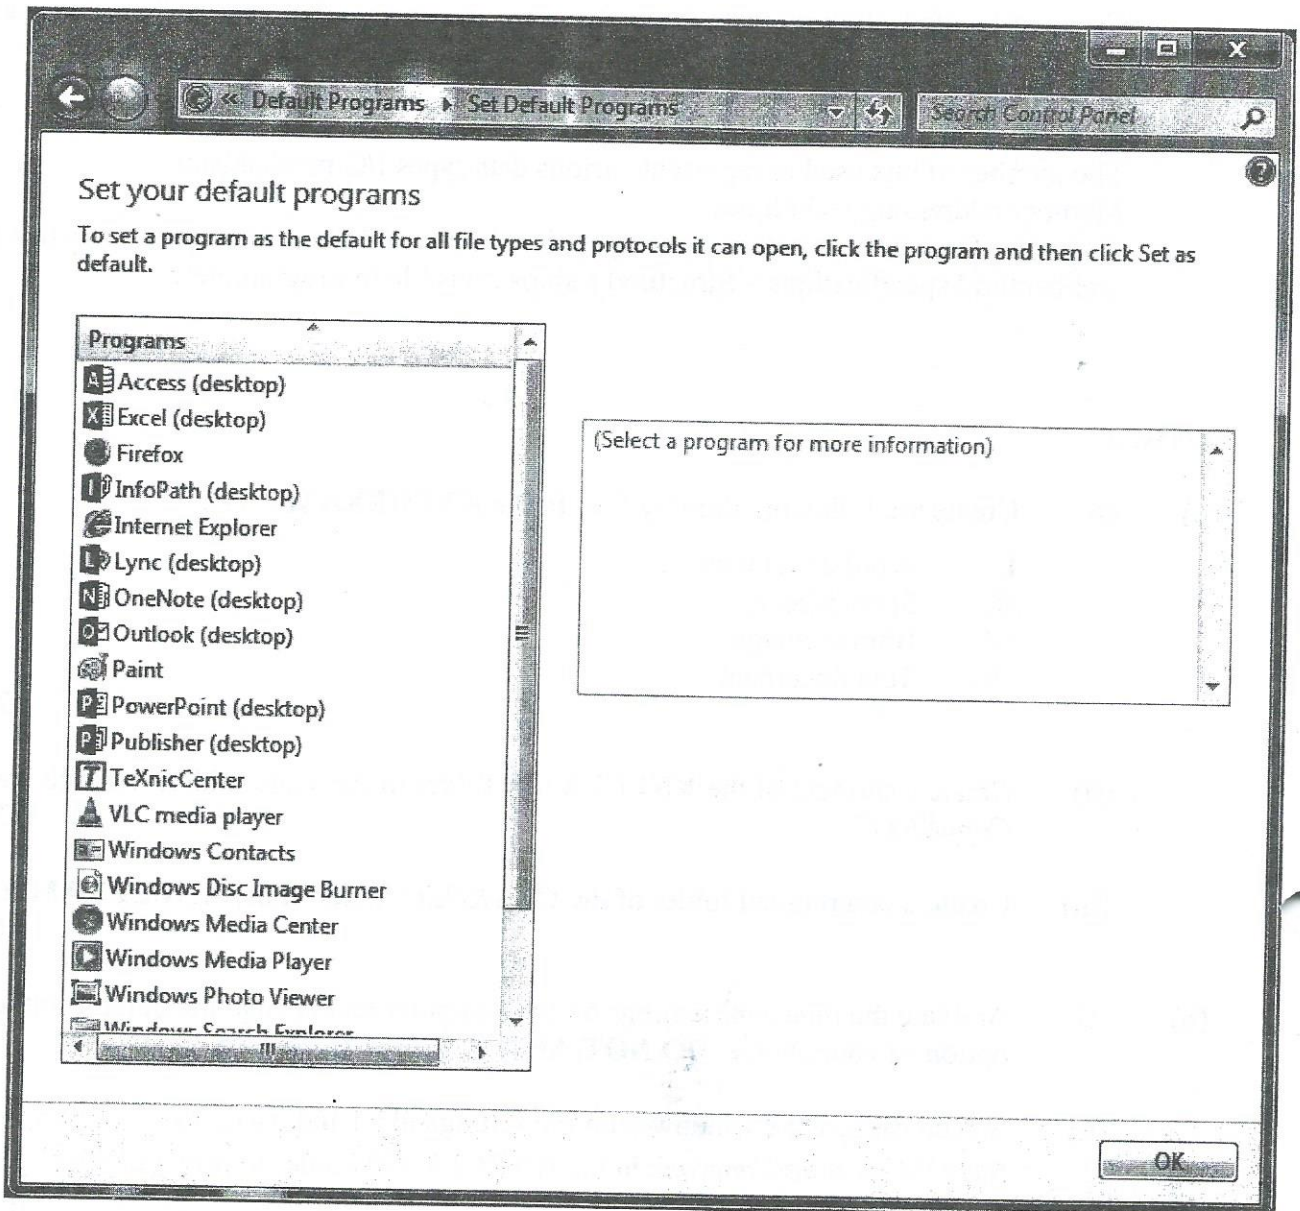

Figure 1

- (ii) Screen capture the window (with the result) in (i) and paste it in a blank word document. Save the work as *Defaultprogram* in the **KNECEXAM** folder to print out later. (5 marks)

TASK 4

- (a) (i) Set the virus scan schedule for the computer to weekly as shown in figure 2.

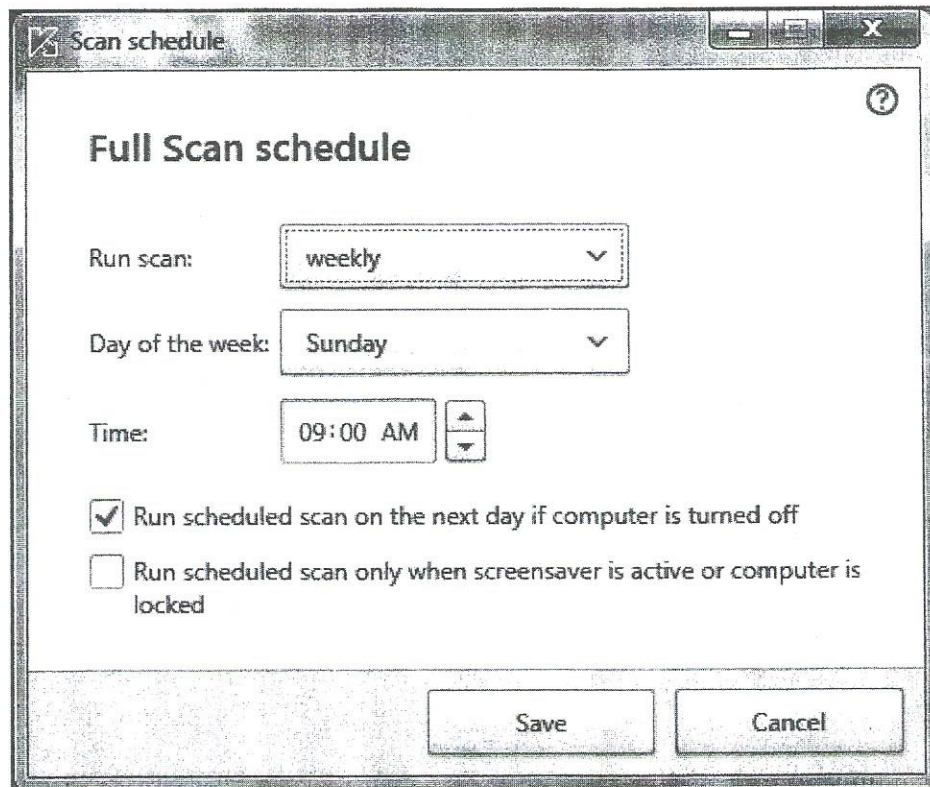

Figure 2

- (ii) Screen capture the window with the settings in (i) and paste it in a blank word document. Save the work as *Scanschedule* in the **KNECEXAM** folder to print out later. (5 marks)
- (b) (i) Open the window showing the basic network information and set up information.
- (ii) Screen capture the window in (i) and paste it in a blank word document. Save the work as *Netconnection* in the **KNECEXAM** folder to print out later. (5 marks)

THIS IS THE LAST PRINTED PAGE.
